

Street Naming & Numbering Application

Ceredigion County Council

New development – 2+ plots

To begin the process, developers should send their applications to the Street Naming & Numbering Officer and include:

A location plan clearly identifying the new scheme in relation to any existing streets or means of access (or a Planning Application number will help us to find plans already submitted). A site map showing the extent of the new street(s) and the proposed name(s), **(when submitting a new name the Street Naming & Numbering Officer will enforce new streets to have a single, Welsh form of the name)** taking into account the Council's protocol. If the developer does not want to propose street names for the new development, he/she should notify the Street Naming & Numbering Officer who will invite the local Parish/Community Council and Ward Councillor to put forward suggestions.

The fees for new developments are listed below. Payment methods can be found on our website
www.ceredigion.gov.uk/addressmanagement
