## **Annex 2 - Conditions consistent with the operating Schedule**

General —All four licensing objectives. Having had advice from Police Licensing Officer Mr John Evans, and experience in doing large bars at festivals and show dances I understand what is expected from the authorities and intend to do our very best to comply. We intend to carry out activities as listed below. The event is on a field with security fencing and street lighting around, and situated on the A 486 Road. Hard ground complex to the right of the field ideal for transport to pull into car park. Site is currently used for the vintage show. The site has been adopted to make more suitable for events. Marquees put up for entertainment and a beer tent, catering trailer tent on site for catering. Annual event on Easter Saturday each year.

### The prevention of crime and disorder

The Event Organisers together with Stewards will be in charge of duties such as controlling traffic and parking, also radios will be available for communication with the SIA Security staff, so that if stewards see any problems occurring the Security staff can be notified, i.e. customers coming in without paying jumping the security fencing. Hired SIA trained Security staff will be situated on site covering all areas, the road entrance, car park, entrance to the marquee complex, and at all entrances/exits/stage area within the marquee. 1 SIA door Supervisor will be hired per 140 attendees or part thereof.

The field and main road has lights in place, due to the group being a showground for the Vintage show since 1989. Our marquee will also have lighting inside and a tower light will be provided for more lighting. This in our opinion will prevent crime and disorder due to suspects being more visible and also if problems do occur the situation will be dealt with more efficiently due to good lighting.

Checks are made on entry, any drunk or underage persons will not be allowed entry and police will be notified if necessary. Also a search policy will be made on entry to prevent the public taking in their own drinks and it also helps prevent drugs at the event.

If any weapons or drugs are found, they will be confiscated and placed in a locked, safe box. The police will be notified as soon as possible.

At the event no alcohol is to be served to persons under the age of 18 years old, ID is asked at the bar. A band system is also used a different colour band is given to over 18s. Please see full detail at Protection of Children from Harm section.

Anyone behaving in a drunken, quarrelsome or threatening manner will be ejected from the premises and if necessary police will be informed.

### Public Safety

Hire of fire extinguishers and specialist electrical extinguishers. A qualified electrician will do a check on all equipment before we open to the public. A member of first aid will be on site at all times when open. All electrical equipment is fenced off. Fire excites are kept clear at all times, emergency lighting in use. Two generators are used in case of one failing. All equipment hired in i.e marquees and mobile bars / catering will be erected and put in place by professionals. The capacity for the event at any given time is 2500 people.

As above, search policies will be in place, to prevent any weapons at the event, also all drinks sold by the bar will be put in plastic glasses.

### The Prevention of public nuisance

The site is in a great location when it comes to public nuisance apart from one near house situated 100 yards from the site, we have met up with the owners and they have no problem with the event, and have told them that our staff will keep an eye on their premises when our event is in place, to prevent any potential problems to them. We have also provided them with our contact details. Also we will ensure that the sound systems are not too loud and are directed in the most appropriate way possible to prevent public nuisance.

**The premises licence holder or his consultant / Chief engineer shall be in overall charge of all amplifications equipment used. The maximum levels shall be set during a sound test to be held for a period of one hour maximum on the day of the event. This level may be amended by a member of the Environmental Protection section of the County Council on demand, in the event of a noise nuisance arising in the opinion of the said officer.**

At the end of the evening we will have plenty of stewards and security staff to make sure that everyone leaves the premises as quickly and safely as possible and to ensure that any coaches picking up passengers do so as safely and as quickly as possible, reducing the traffic on the road. A system will be put in place the buses will drop off passengers with the door of the bus opening towards the gate of the entrance, this prevents the problem of people crossing the road, as we will try are best to get buses to turn around so that they are facing the right way for dropping off passengers. The same as when pick up time, buses will be made so that the door of the bus is the same side as the exit, again to stop passengers having to cross the road.

We have the use of a field for cars to park in providing weather conditions and also an area of hard ground for buses to park on. **(see mediation sheet attached for further conditions agreed)**

### The protection of children from harm

All persons aged 18 and over will be provided with a wristband. Any persons suspected of being under the age of 18 will be asked for ID and if this cannot be produced then no wristband will be issued and therefore that person would not be served with alcohol. ID that will be accepted at the event are the following, passports, photo driving licence, photo pass/valid logoed cards. If in doubt staff will not serve. The bar staff will be briefed beforehand and all are experienced with serving alcohol. It will simply be "no wristband no alcohol". The wrist bands work in a way that once put on you must break them to get them off, this prevents people swapping wristbands, if customers come to the bar with a broken wristband they will not be served and will have to go to the main gate and get a new wristband. Alongside the Security staff we will have plenty of stewards on hand and their role will be to keep an eye for any persons purchasing drinks for under 18s and then passing the information on to the supervisors on duty for them to deal with the matter at their discretion.

Having run large bars at many festivals and show dances and from my experience in working in the licensing trade from a very young age, I understand the problems that occur in these events. I am determining to prevent them from happening. And to run an event we safety is the main priority.
